J. R. Miller

Hockey League Elects Officers.

A well represented gathering of delegates to the Rosebud League met at Olds on Wednesday, Nov. 9th, to elect the executive committee for the coming season, adjust the rules and schedules, etc. A. L. Harvey read the minutes of the last meeting and, after discussion, the delegates elected the following to the committee: Dr. S. C. Mann of Olds, president; D. L. MacDonald, Carstairs; Chas. Cooke, Didsbury; J. B. McLaren, Bowden, and F. Kirkham of Innisfail as vice presidents; A. L. Harvey of Olds, agreed to continue as secretary.

Following the election of officers, several problems came up for debate, during which all angles were discussed and as a result, the delegates enacted a resolution to use the A.H.A. rules for the season with the single exception of the residence requirements which they will leave for the executive to deal with if occasion arises.

The delegates, in adopting the A.H.A. rules, have simplified their problems by using a code of regulations that are common to the whole province and covers all disputes and greatly simplifies the work of the referees as a copy of the regulations will be found wherever they may be playing thus obviating the necessity of the players and the referees playing under two different codes—one often contradicting the other.

An exceedingly enjoyable dance was conducted by the L.O.D.E. on Monday night for the furtherance of their worthy work in the community. The many varied and delightful costumes gave an exotic appearance that proved to be greatly appreciated by the many patrons who gave their support to the faithful work of the ladies of the committee in charge. Prizes were given to the following: Evelyn Roper, best dressed lady; Clint Reiber, best dressed gent; Mary Van Heswick, best comic lady; Mr. Lowrie, best comic gent; Helen Weber, best homemade costume; Cliff Bellamy, best homemade costume.

Owing to a sudden attack of illness, which confined him to bed for the whole of last week, Rev. H. Clay was unable to hold the Harvest festival at St. Cyprian's Church on Sunday last. However it will be held this coming Sunday, and a record attendance from both town and country is expected.

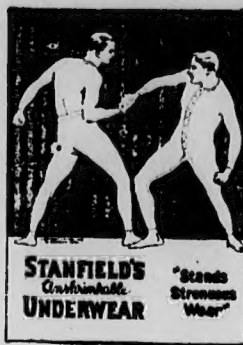

H. A. BROWN,

whose appointment as Vice-President and General Manager of General Motors of Canada, at the age of 37, marks him as one of the youngest higher executives in the automotive industry. Mr. Brown has been connected with the General Motors organization for a number of years, having held the position of comptroller at Oshawa since September, 1924. He succeeds Gordon Lefebvre, who has assumed an important post with the Oakland Motor Car Company at Pontiac, Michigan.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

A Good Deed

It was our pleasure, says a writer in a New York paper, to meet with the Boy Scout spirit, fully matured, aboard a Long Island train recently. At one of the stations the gentleman seated in front of us accidentally dropped a glove out the window just as the train started to move out. Without a moment's hesitation he tossed the other one after it. Moved by curiosity, we dropped all reserve to ask him why he had done so. He courteously explained that the one glove that remained would have done him no good; nor would the lost glove have done the finder any good. This being the case, he had tossed out the other, so that the finder might have a complete set.

The viewpoint and line of conduct of this man might well serve as an object lesson to many, adding contentment in their own lives and conferring benefits on others. The average person, it is to be feared, would have grumbled and bemoaned his loss, small though it be, and generally made himself and possibly others miserable for a time, and all to no end. But the hero of this little incident, which might have passed unobserved, enjoyed a brighter outlook on life and a finer conception of things generally. He had sustained a loss which, under the circumstances existing, could not be restored. He realized on the instant that he must accept that loss. His immediate thought was as to how his loss could be turned to somebody's gain.

If in family and community life and activities the spirit displayed by this unknown man became the inspiration of our thought and the guiding motive of our actions, how much happier this old world would become. What contentment of spirit and real joy in living would be experienced by those who adopted and followed such a policy of unselfishness, resulting in an inner gain of satisfaction far outweighing the outward and material loss sustained.

Such a spirit and code of conduct costs nothing, and how much more satisfactory all round it would be to that usually followed in which a loser determines that if he must lose, or has lost, he will at least have the satisfaction,—poor though it be,—that nobody shall be the gainer thereby.

There are people no doubt who are inclined to belittle and scoff at the insistence with which members of the Boy Scout organization are taught to be watchful for opportunities for helping others in order that they may do at least one good turn a day. But if such people would strive for just one week to emulate these Scouts and do good turns to others, they would quickly discover a new richness and joy in their own lives while at the same time happiness and gain would be conferred on others.

The people of Canada have just observed a day of National Thanksgiving and in a few weeks all Christendom will be joyously celebrating the happiest day in all the year, Christmas. Many may have sustained losses and suffered defeats in the months that are passed without making the slightest effort to extract such profit as they could from their loss and without turning defeat into ultimate victory. Possibly they are still bemoaning the sad fate which overtook them, feeling sorry for themselves, and declaring that luck is against them. Such an attitude will avail nothing; it merely makes for further discontent, discouragement, and additional failure and loss. Such an attitude is taking the joy out of their own future lives and making for unhappiness and misery for others.

Let the dead past bury its dead. Forget your losses and disappointments except as they can be capitalized to realize future gains, if not for yourself, then for somebody else. In the long run this will mean gain for you.

Decorate Nelson Monument

Custom Observed On Anniversary Of
Historic Victory

On the anniversary of the Battle of Trafalgar, the monument to Lord Nelson in Trafalgar Square, as is customary on this date, was bedecked with laurels. Nowadays the monument has become a sort of cenotaph for wreaths placed there to honor the sailors buried beneath the waves in the Great War.

Nelson's flagship Victory, which is now permanently drydocked at Portsmouth, still is undergoing restoration. Her topmasts and spars have not yet been replaced, so Nelson's famous signal, "England expects that every man will do his duty," flew from the nearby signalling school.

At the dinner given by the Navy League Earl Beatty, former Admiral of the fleet and First Sea Lord, pro-

Does Ill Health Detract from Your Good Looks?

Hamilton, Ont.—"I was in a rundown state of health, my nerves were bad and I suffered from back-

aches and pains in my side, which would be so severe that I would get weak and have to lie down. I could not eat without being distressed. Upon the advice of a relative I started to take Dr. Pierce's Favorite Prescription and it relieved me of all my distress, and I do not suffer in any way from any of the above conditions. I have a good appetite and my nerves are in splendid condition. I am strong and healthy in every way."—Mrs. George Turansky, 373 Ferguson Ave. North.

Sold by dealers, Fluid and tablets. Send 10c for trial pkg. tablets to Dr. Pierce's Laboratory, Bridgeburg, Ont.

Fokker Foresees Millions Of Planes

Aviation Is Great Factor For Peace
Says Designer and Builder

A million or more planes blackening the air over America, from silver planes, in which the young man can take his sweetheart for a ride in a dual control side-by-side cockpit, to giant multimotored air transports, were pictured by Anthony H. G. Fokker, at a luncheon of the Netherlands Chamber of Commerce of New York.

Mr. Fokker said the development of commercial flying was closely linked with military aviation and that the nations of Europe had realized this. The subsidies granted to air transport lines in Europe for commercial purposes, he said, were part of the general preparation plan for future wars whereby pilots would be trained and fields, hangars and workshops provided for future military use.

"Aviation is the cheapest and most efficient method for killing people," Mr. Fokker said. "In a city like New York bombing planes loaded with gas bombs could destroy a million persons absolutely without fail. So important will aviation be as an offensive weapon in another war and so great is the range of planes that the safest place for men will be the front line trenches."

The designer suggested that aviation was a factor for peace by its very deadliness as a potential weapon of offense.

"Men are not so likely to start a war or to help keep one going," he said, "when they realize that nowhere can they find safety for themselves. The man who stays away from the front to manufacture shells and guns on war contracts will be in more danger than the man at the front."

On Ladies' Toes Are Sore Corns

Quick safe relief is almost instantaneous if you apply Putnam's Corn Extractor. Shoes won't pinch or hurt any more. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for Putnam's.

Tells Why Germany Failed

Ex-Kaiser Says People Did Not Sacrifice Enough

In an interview with George Sylvester Viereck, printed in Liberty, Wilhelm Hohenzollern, formerly German war lord, tells why Germany lost the war.

"Because we did not obey God in all things; because we hesitated to bear the worst; because we refused in the end to face all risks in preserving faith! The German people performed miracles of endurance, but at the last they failed. The supreme miracle can be accomplished only by faith. We should have fought to the very last carrot, the very last man, the very last round of ammunition."

The emperor is a pretty one to talk about fighting to the last carrot! The German people had indeed performed "miracles of endurance." They had sorrowed over their losses and mumbled their black bread patiently enough. It was their leader, their emperor, who by his midnight departure for Holland set them the example of submission to stern fate.

Wilhelm had plenty of carrots. He had caviare and champagne. He had abundance while his people starved. He had millions in the midst of beggary. He had six tall sons, carefully protected during a time when grass grew green on many new graves. For him, now, to blame the German people for "hesitating to bear the worst," for "refusing in the end to face all risks," is, perhaps, no more indecent than might have been expected.—New York World.

Requisite On the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Most Northerly Post

The Canadian Government post at Bache Peninsula, on the east coast of Ellesmere Island in the Arctic, is the most northerly police post, post office and custom house in the world. It is 755 miles (656 nautical miles) from the North Pole.

posed a toast to "The Immortal Memory of Lord Nelson." Earl Beatty was supported in the toast by the oldest living admiral the Hon. Sir Edmund Robert Fremantle, who is in his 122nd year.

All Night With Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfitted for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Standard Too High

Author Receives Courteous Rejection
Slip From Chinese Publishers

John K. Williamson of Detroit, who is stopping in London, has received the prize rejection slip of Chinese publishers. "We read your manuscript with boundless delight," wrote the Chinese firm, "By the sacred ashes of our ancestors we swear that we have never dipped into a book of such overwhelming mastery. If we were to publish this book it would be impossible in the future to issue any book of a lower standard. As it is unthinkable that within the next 10,000 years we shall find its equal, we are, to our great regret, compelled to return this too divine work and beg you a thousand times to forgive our action."

Proud Of Waiter's Job

Has Given Him Self-Respect Says
Russian Nobleman

A six-footer of aristocratic mien at the Waldorf, New York, also distinguished by a spike-tailed coat with gold braid, has identified himself as William Schurch de Witte, famous premier under the Czars. He is now a floor waiter, having worked up in six months from kitchen boy.

Proud of his job, he says: "I have more self-respect than when I was playing bridge or attending tea parties in New York City." He kept his incognito until recognized by a woman guest of the hotel whom he had met socially, he says.

It's no trouble at all to find trouble.

Clever Deaf Children

Band Of Twelve In Wisconsin School
Give Concert

A band of twelve small totally deaf children, who devote their entire energy to producing a perfect rhythm and ignore the matter of melody, has been organized in the Wisconsin School for the Deaf and is the culmination of an interesting experiment in instruction.

The children recently gave a concert in which they played a march, a dance, and a lullaby with three cymbals, one set of jingle bells, one drum, two tambourines, two triangles, and three miniature xylophones.

Fish rise and fall in the water by means of an air bladder inside them.

FOR Neuralgia

ASPIRIN

Proved safe by millions and prescribed by physicians for

Neuralgia Neuritis
Headache Toothache
Colds Lumbago
Pain Rheumatism

DOES NOT AFFECT
THE HEART

Safe

WARNING!

Beware of Counterfeits

There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is not stamped with the "Bayer Cross"—refuse it with contempt—it is not "ASPIRIN" at all! Don't take chances!

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocyclic-acidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SAYS CONDITIONS IN CANADA ARE NOW EXCELLENT

London.—Industrial conditions in Canada are excellent, and the outlook for 1928 is good, said F. W. Field, senior British trade commissioner in Canada, on his arrival at Liverpool aboard the *Albertic*. He emphasized that there was a marked desire for greater investment in the Dominion on the part of the United Kingdom.

It is probably true to say, continued Mr. Field, that business men and investors of the United Kingdom have taken a greater interest in Canada this year than in any previous years. The visit of the Prince of Wales and Premier Stanley Baldwin to the Dominion last summer made a deep impression, while the tour made by members of the Empire Mining congress brought to the attention of mining men and empire capitalists the vast mineral resources of Canada.

"We had more calls at Montreal from British manufacturers and merchants than at any time previously," said Mr. Field. He emphasized that one cannot sell to Canada at long range because it is a market, above all others, in which the seller must go to the buyer.

Airplane Companies Are Cutting Prices

British and French Competing in Cross-Channel Service

London.—A price war between the French and the British aeroplane companies competing in the cross-channel service between London and Paris was revealed when French Air Union officers here announced further cuts in both first and second class fares, in answer to the Imperial Airways inauguration of a second class service.

The French line also announced that it would make an effort to cut the time between the capitals as well as the fares. The average time is now two hours and a half, but new planes which will have the latest *Morot-Olivier* engines will be scheduled to make the trip in two hours and 11 minutes.

As a result of the price war, it is only 17 shillings more expensive to go to Paris by air second class than the first class railroad fare and the saving of time is four and a half hours.

Want Expert Advice

Mexico City.—Sir Henry W. Thornton, president of the Canadian National Railways, has been invited to come to Mexico City to study the financial condition of the National Railways and to suggest a plan for their reorganization in order to place them on a paying basis, the Mexican treasury department has announced officially. The invitation was extended to Sir Henry by President Calles.

U.S. Consulate At Nanking Robbed

Peking.—The safe of the United States consulate at Nanking has been broken open and its contents stolen, according to official reports to foreign sources here from Nanking. The contents included colonial silver heirlooms belonging to John K. Davis, the consul. Bound volumes of the consulate correspondence are being hawked on the streets of Nanking for a few cents as waste paper.

Arctic Explorer Granted Review

Washington, D.C.—Dr. Frederick A. Cook, Arctic explorer, was granted a United States supreme court review of his suit for release from Leavenworth federal prison, where he is serving a sentence of 14 years and 9 months for using the mails to defraud.

To Renew Timber Supplies

Victoria.—The lands department has leased a plot of land near this city where forest trees of this province will be grown from seed and planted artificially to renew timber supplies for a future generation.

Total Casualties In Boat Disaster

Rio Janeiro.—A total of 314 persons perished in the *Princesa Mafalda* disaster off the coast of Brazil. It was shown in final figures made public by the local office of the Navigazione Generale Italiana, owners of the vessel. There were 945 survivors.

League Now Virtually Universal In Scope

So Long As Nations Co-Operate Membership Not Essential

Geneva, Switzerland.—The League of Nations' dream of universality practically has become a reality. The United States is now participating in virtually all league activities, save those which are political, and the Soviet Government has decided to take part in the league's preparatory disarmament conference.

League observers contend eight years' experience has demonstrated it is unimportant whether nations are members of the international body so long as they willingly co-operate in the league's activities.

Both the Soviet government and Turkey already are collaborating in the league's economic activities, while Mexico has sent an official observer to the economic conference.

Thus Ecuador is virtually the only nation in the world not yet collaborating and, therefore, the league now regards its activities and influence as virtually universal in scope.

Noted Author Loses Sight Of Right Eye

Booth Tarkington, Threatened With Blindness, Is Undergoing Treatment

New York.—Booth Tarkington, author of "Monsieur Beaucaire," the "Penrod" series of boy stories and many other literary successes in novel, play and short story form, has lost the sight of his right eye and is undergoing treatment at the hands of Dr. John Hay Newcomb, eye specialist of Indianapolis, to save the sight of his left eye, which has been threatened. At his home in Kennebunkport, Me., Mr. Tarkington disclosed that he had lost the sight of his right eye about a year ago.

"I burst a blood vessel, and gradually my eyesight went out," said Mr. Tarkington. "For a time I was threatened by nearsightedness in my left eye, but under strenuous treatment my left eye has improved, and I am now able to use it in my work."

South Africa Receives Message From King

King George Expresses Gratitude Over Settlement Flag Controversy

Cape Town, South Africa.—A message from King George expressing gratitude over the amicable settlement of the flag controversy in South Africa was read in the House of Assembly amid appreciative applause. The message was read by Premier J. B. M. Hertzog, as follows:

"I wish to express my heartfelt satisfaction over the solution of the flag question, and I earnestly trust that the spirit of tolerance, conciliation and goodwill may continue to animate all parties to unite for the common weal."

Another Use For X-Rays

Dallas, Tex.—Doctors at Baylor University here have discovered that they can determine with an X-ray whether or not a person is hungry. Experiments have been made for some time in observing the hunger contractions of the stomach muscles, but it was only recently that the action could be clearly seen and photographed.

Amassed Large Fortune

Ottawa.—Starting life as a cab driver, Joseph Riopelle died here, at the age of 83, credited with having amassed a fortune of \$400,000. As soon as he had saved sufficient money from his cab driving, he commenced in lumber logging and later started the financial business which bears his name.

Flying Contest For Colleges

London.—An Oxford Cambridge flying contest may be added to the annual list of trials of strength between those two universities. Both now have their own air squadrons and the Cambridge squadron claims that its members collectively have flown a distance equal to three times around the world.

Princess Hermine's Son Dead

Berlin.—Prince George Wilhelm Von Schoenach-Carolath, son of Princess Hermine and stepson of former Emperor William, died in a hospital at Gruenberg, Silesia, from injuries which he suffered in a motorcycle accident.

Sister of Conservative Leader

Here is the new Conservative leader's "little sister." Miss Mildred Bennett sister of Hon. R. B. Bennett, from a recent photograph.

War On Small Envelopes

Post Office Department Has Endless Trouble With Smaller Sizes

Ottawa.—The Post Office Department has declared war on small envelopes and lady's dainty envelopes. It is soon to be a matter of history. Primarily responsible is the new cancellation machine adopted by the postal authorities. In the operation of the cancellation machine, if the envelope be small the cancellation stamp is liable to interfere with the address. Then again small containers are liable to become lost through dropping out of letter bundles. Manufacturers have agreed not to turn out any more small envelopes, and no small Christmas cards necessitating the use of tiny envelopes will be made.

Victory Loans Redeemed

Twenty-nine Million Dollars In Bonds Retired From Revenue

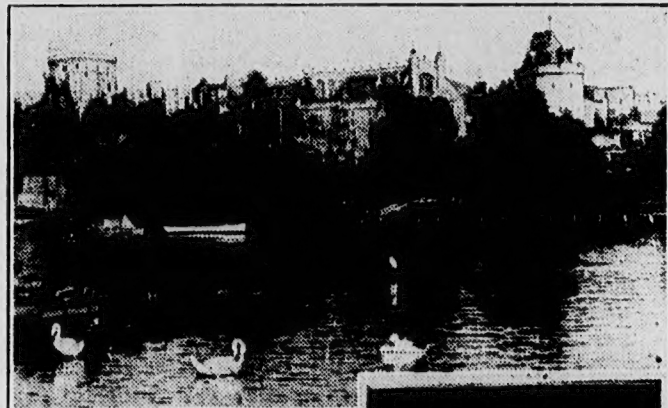

Ottawa.—Canada on Nov. 1 redeemed 29 million dollars in 5½ per cent, five-year Victory renewal loans. Hon. J. A. Robb, Minister of Finance, has announced. The amount was retired from revenue. Eight million dollars, in treasury notes, which fall due on November 15, will probably also be taken off the market and redeemed from revenue, Mr. Robb intimated.

A further Dominion maturity of sixty-three millions in 5½ per cent. Victory loan is due on December 1.

Stunt Pilot Killed

Dessau, Germany.—The Junkers Company's crack stunt pilot, Karl Plauth, was killed when his plane crashed to the ground from an altitude of 2,000 feet. The plane fell while he was executing a nose dive. He tried in vain to right the machine when he reached an altitude of 1,200 feet.

Windsor Greets Windsor

Although the Fates decreed that Windsor, Ontario, should not be allowed to send by air an expression of its best wishes to Windsor, England, yet the inhabitants of the English town were apparently determined that a message of goodwill should not go unsaid. Among the Canadian Pacific Express Co.'s shipments aboard the "Montclare" recently was to be found this expression of friendship in the form of a shield of oak made from the Windsor Forest where many Canadians were encamped during the Great War. The shield bears the municipal arms of the Royal and ancient Borough. Its charter being granted in 1276 by Edward I.

The shield, which has gone forward to Windsor, Ontario, is the gift of Sir William Carter, Mayor of the Eng-

New Service On Bay Line

Additional 70 Miles Of Track Improve Train Facilities

Winnipeg, Man.—With the addition of 70 miles of line and a better connection at The Pas with the Winnipeg trains, an improvement in train service on the Hudson's Bay Railway came into effect on Thursday, November 3. Trains will leave The Pas every Thursday at 11 a.m., reaching Pikewitone at 11 p.m., departing from Pikewitone 8 a.m. Friday, arriving at the present terminal, Mile 286, at 1 p.m. and reaching the end of steel, Mile 356, at 6 p.m. The new portion of the line is between Mile 286 and Mile 356. Returning, the train, which is a mixed, will leave Mile 356 at 8 a.m. Sunday, arriving at Pikewitone at 6 p.m. the same day and leaving there for The Pas at 4 p.m. Monday. The Pas will be reached at 4 p.m. Monday. Trains leaving Winnipeg Wednesday will arrive at The Pas at 8 a.m. Thursday, and trains leaving The Pas for Winnipeg will pull out at 6:20 a.m. Monday.

Storm Takes Death Toll

Shipwrecks and Great Loss Of Life On British Isles

London.—The death toll of the recent storms in the British Isles mounted to 71, with news of 50 shipwreck deaths in Ireland.

Thirty-one seamen were drowned at Cleggan Bay, while 19 lost their lives at Enniskillen and Lackan.

Lloyd's reported that 17 small vessels were destroyed by the gales, which reached a velocity of 99 miles an hour. Officials estimate several thousand homes were wrecked by floods and winds.

All Canadian Dinner

Will Be Feature Of Celebration Of Canada's Agriculture Jubilee

Ottawa.—An "all-Canadian" dinner will be a feature of the celebration of Canada's "agricultural jubilee" which is to have its climax at the Royal Agricultural Winter Fair to be held in Toronto from November 16 to November 24. This announcement was made tonight by the Hon. W. R. Motherwell, Dominion minister of agriculture, who will be the host on behalf of the Federal Government. Only food that is the product of Canada will be found on the tables.

Hen Sells For \$500

Vancouver.—Announcement has been made by the poultry department of the University of British Columbia of the sale of a White Leghorn hen for \$500. The hen was known as F. 339, and was exhibited at Ottawa last summer. Last year she laid 335 eggs in 365 days. F. A. Sansome, Greenwich, Conn., is the purchaser.

ENTIRE CREW OF JAP VESSEL DIE OF STARVATION

Port Townsend, Wash.—Dead of starvation, despite evidence that indicates they devoured the bodies of seven or eight of their shipmates, the last two to survive of the crew of the Japanese fishing boat *Riyo Yel Maru*, meaning "Good and Prosperous," arrived here aboard their pilotless vessel after drifting with the sea currents more than 4,000 miles from the coast of Japan.

Physicians from the United States quarantine station here who went aboard the fishing boat said there was no question but that cannibalism had been practiced by the last survivors of the crew. The bones of seven or eight human beings were found aboard the boat, which bore unmistakable evidence of many months at sea.

The boat was picked up by the freighter *Margaret Dollar* off the Washington coast and towed to the quarantine here.

The bodies of the two Japanese were found in bunks in the tiny dark cabin aft of the engine room. They were in natural positions as if they had failed to awaken from a deep sleep.

The boat was about 85 feet long, or 15-foot beam and 12 feet depth, was equipped with a gasoline engine in addition to canvas and bamboo sails. The sails were torn to shreds by gales and standing gear on the deck was twisted and bent. The hull was bare, encrusted and dragging seaweed two feet in length.

Barely decipherable Japanese characters scrawled upon a board in the death ship's cabin gave a meagre record of the last days of the starving crew.

The writing was said to indicate that the ship drifted helplessly for seven months after the captain and crew of 12 despaired of repairing their stalled gasoline engine. Three months ago the starving Japanese gave up hope of living when they saw the first of their number taken by death, the scrawled and faded script in the cabin revealed.

Research Bureau Of Education Urged

Would Develop System Of Instruction Says Dr. Robert Fletcher

Winnipeg.—Establishment of a Dominion research bureau of education for improving the teaching machinery in such a way that the youth of the land would learn more in the same given time, was urged by Dr. Robert Fletcher, B.A., LL.D., deputy minister of education for Manitoba, speaking as president at the opening of the fourteenth annual meeting of the Canadian Educational Association here.

Such a bureau would render very fine service to the provinces without encroaching in any way on the special educational prerogatives which belong to each and which all regard so jealously, declared Dr. Fletcher. He pointed out that the necessity for careful research in both the methods of teaching and the material to be taught was more and more forcing itself upon the attention of educationists.

Asking Protection For Salmon Fields

Delegation From B.C. May Request Government To Enforce Closed Season

Ottawa.—A delegation representing the fishing industry in British Columbia have gone to Ottawa prepared to meet Federal Government officials regarding the conservation of salmon and other species in the coastal and inland waters.

J. N. Ellis, of Vancouver, one of the delegates, states that it is quite likely the government will be asked to enforce a closed season in order to safeguard the future supply of salmon.

Cancels Boycott Against U.S.

Mexico City.—President Calles has cancelled the decree issued last May forbidding government departments to make purchases from the United States as a reprisal for the embargo established on certain shipments belonging to the Mexican Government.

LOCAL AND GENERAL

Those desiring to contribute grain, fruit, vegetables, etc., to the Harvest Festival at St. Cyprian's Church. Please leave them in the vestry of the church on Saturday afternoon.

King Hiram Lodge paid a friendly visit to Carstairs Lodge last Thursday night. After the usual business was transacted, the remainder of the evening was spent enjoyably in general conversation and entertaining. On November 21st, King Hiram will visit Zetland Lodge, Calgary. This will be the last visit of the year, and as it is a very important one a large delegation is expected to go down.

The recent cold weather we have experienced, has raised the hopes of a large number of skating enthusiasts in the town, and, more especially, those who intend to re-

organize the hockey club for the coming season. While there has been no mention of any plans concerning the skating rink, it is to be hoped that the matter will not be allowed to lapse until the season is half over. There is plenty of good material this year to form a hockey team at least as good as last year's.

Mr. J. Kirby, well-known proprietor of the City Meat Market, had the misfortune to break one of the bones in his leg while participating in the Masquerade Dance on Monday night, and will be confined to his room for a month or more. During his absence, Mr. Remple, who has been threshing north of Didsbury, will manage the business.

Mr. and Mrs. Leadbetter have had the pleasure of entertaining their daughter-in-law, Mrs. W. Sanders, of Calgary, during the past week. Their son Wilfred paid them a flying visit over the week-end returning to Calgary on Tuesday morning.

Old Man Winter sprayed a cloak of gloom over the countryside during the week-end, hampering the efforts of many threshing outfits, who were pushing their machines to the limit in the vain hope that the "Old Boy" might have a warm spot in his heart for the farmer. He must have "frozen up" before he got here, because when he did, he had a heart of ice. Let's hope that when he starts spraying again, he'll spray the other way.

Mr. E. K. Pratt was a visitor to town on Wednesday and informed us that he had practically all of his threshing to do yet, having been unfortunately caught by the snow while attending to the threshing on other farms.

They say it's an ill wind, indeed, that blows good to no one, and so it happens, that while the farmers who still have wheat to thresh may be involved in some loss, on the other hand, the many curling and hockey enthusiasts who enliven the town are looking forward to the exercising of their various abilities—and disabilities—with stone and puck with awakening interest and we sincerely hope that Didsbury will continue to hold its high position among the different clubs in the leagues.

We have heard discussed with much earnestness the plan of keeping rinks solely for children within the town and we are inclined to favour the proposition greatly. With a rink where children alone may skate, the children are afforded an opportunity of a healthy recreation that is not available by any other means and the beneficial exercise thus procured means a great deal in the building up of strong young bodies, and healthy alert minds which, as any teacher will testify, is a long step towards the training of children to be strong and resourceful men and women of virile strength and sound character. Lead them to desire the outside life, the healthy "give and take" of outdoor sports; sportsmanship and love of fair play so characteristic of our Canadian youth. Two thousand years ago the Romans said, "a sound mind in a sound body," meant success for any man. As it was true then so it is true today and if one wishes one's children to grow to what they should grow, then one must see that they receive all the education and recreation they can get.

H. D. Booker, the delegate from

Didsbury, went down to Calgary on Tuesday to attend the Anglican Synod being held there this week.

Harold Hardy, after having spent a year at Vancouver, is back again in town.

Mr. Crum, principal of Didsbury High School, spent the week-end at Edmonton.

The many friends of Mrs. T. M. Cummins, who left us last week, may care to know her new address. She will be found at Ringclare, Donaghmore, Newry, County Down, Ireland.

J. Bagshaw, prominent farmer of Westcott, who takes a great interest in stock, patronized the Calgary Stock Show last week and purchased some pure-bred Yorkshires.

The Hughes Bros. have been very active in the Calgary Stock Show disposing of many good entries and helping this event to a greater success.

The W.C.T.U. will hold a parlour meeting at the home of Mrs. J. V. Berscht on Tuesday evening November 15th, at 8 o'clock. An interesting program will be given including provincial convention reports.

An invitation is extended to all members to bring husbands and friends.

Rugby.

The November meeting of Rugby W.I. was held at the home of Mrs. J. A. Hughes on Thursday, November 3rd with twenty members and five visitors present. It was decided to alter the date on the entertainment to November 18th on account of the Conference at Carstairs on November 25th. The sum of \$40 gathered by the members for the Hospital was handed in at this meeting. We were glad to have Dr. and Mrs. Clarke with us, and the Dr. gave us a splendid address on the necessity of the various vitamins in our food. If we don't give our families the right diet after this lecture, it certainly will not be the fault of the Doctor. After his address we spent a social hour enlivened by community singing and a contest entitled "The Lost Song, Romance"—some of the songs were lost alright. Miss Levagood favoured us with a pianoforte solo which was much enjoyed.

In the contest in Canned Peas, Rhubarb and Marmalade, held at this meeting, the prizes went to Mrs. Hughes and Mrs. J. Roberts.

At the end of a pleasant afternoon we closed with the National Anthem and lunch was then served by our hostess. The December meeting will be at Mrs. E. B. Parker's, as this is the business meeting it is to be hoped all members will try to be present.

On October 31st, the Junior Red Cross held at Rugby a small sale of work in the school and are to be congratulated on their success at this, their first attempt in this direction. The sum of \$21 was realized.

ONE HUNDRED AND TEN YEARS OLD

On November 3rd, 1927, the Bank of Montreal observed the 110th anniversary of its foundation. The bank officials are justly proud, and patrons of the institution and the public of Canada in general, have a great deal of pleasure in sharing this pride. Canadian banking institutions are known the world over for their stability and the service

which this stability enables them to render.

On this, the 110th anniversary of the oldest banking institution in Canada, the Bank of Montreal also feels justly proud in the fact that it has established a new record in the basic principle of stability prized by all banks—that of assets, its total at this date in its historic career having reached the stupendous sum of \$819,000,000, a record which has never been duplicated by any other bank in this country.

The bank was started away back in 1817, 50 years before Confederation, and now has a total of 600

branches, some of these bring in England, others in France, Mexico and the U.S. One cannot study history without noting the steadiness with which the Bank of Montreal has followed and kept pace with Canadian life, progress and development, for the financial side of affairs is always a prime requisite in progress.

The Women's Guild of St. Cyprian's Church will hold a sale of work and home-cooking on Saturday, December 3rd at the Opera House. Afternoon tea will also be served.

Curlers Hold Meeting

Officers Elected For Coming Year

In view of the fact that it was hastily arranged, the annual meeting of Didsbury Curling Club, held in the C.P.R. rooms on Friday, November 4th, was well attended. The meeting was really enthusiastic and the discussion on various matters conclusively proved that interest in curling has not abated one jot.

The president, J. A. McGhee, occupied the chair. The financial statement of the club showed a very healthy condition of affairs, and a surplus starts the members this year on the right side.

The election of officers resulted as follows:—

A. G. Studer, patron; S. G. Watt, president; J. A. McGhee, 1st vice-pres.; A. McNaughton, 2nd vice-pres.; sec-treas., J. Clarke.

The meeting decided to let the fees remain as last year, viz.: \$10 for the season.

The annual whist drive and dance, it was decided, would be held as early as possible, for which an active committee was appointed.

The Curling Club this year is taking upon themselves the responsibility of keeping the ice in good condition, and consequently a separate caretaker will be appointed for the purpose. Applications for the position may be sent to the secretary.

A meeting will be arranged later to elect skips and arrange a schedule.

Discussing the matter of forming ice, the meeting decided to order a car of sawdust.

The members then dispersed, the feeling predominating that a very successful season was a prospect.

Electric Light By-law Approved by Big Majority.

The vote on the electric light by-law on Tuesday last, showed a big proportion of the ratepayers to be in favor of the agreement between the town of Didsbury and the Calgary Power Co., the figures being 61 for with but two against.

The Opera House is showing an Irish play on Saturday, Nov. 12, entitled "The Callahans and the Murphys." A genuine Irish play with genuine Irish humour.

Saint John Nelson Christananda, describing himself as a Christian Apostolic Preacher, and originating from Southern India, arrived in Canada recently on the Canadian Pacific liner "Montrose" from England. He is a "Sadhu" which translated signifies a Saint and is conducting a short mission of about two months in Canada. Mr. Christananda stated that he had been preaching through Europe and had visited about twenty countries on that continent. His creed, he asserted, associated with all Christian churches without being bound down by any dogmas. He said he was welcomed by all religious organizations.

A consignment of Canadian manufactured ice cream shipped from Saint John about the middle of last month featured the menu of a banquet tendered to over 400 British buyers by the Hon. P. C. Larkin, Canadian High Commissioner in London. On account of the large Canadian representation at the banquet the Commissioner ordered the cream through the Purity Ice Cream Co. in Montreal, and was handled during its 3,000-mile journey across the Atlantic by the Canadian Pacific Express Company. A ton of ice was placed aboard the C. P. liner "Minnedosa" to insure its arriving in perfect condition.

The actual harvesting of wheat in the Argentine has just begun according to reports received at Chicago on Thursday, Nov. 10th, and as the weather is turning warmer with good quality showing in the samples, all markets showed slight depression.

One year from date of publication in the Canada Gazette new regulations requiring the inspection and grading of fruit for exportation come into effect. They will require that all fresh fruit must be inspected and an export inspection certificate issued showing the grade before leaving the country.

A record was established at Quebec recently with nine passenger vessels arriving and landing passengers and mail, the largest number ever to visit the port at any one time. Included in the arrivals were the "Empress of Scotland," the "Montclair," "Montclair," "Marloch" and "Molita" of the Canadian Pacific Steamships.

A new high record of \$15,324,821 in gold production of the province of Ontario during the first half year is shown in the report just out, the increase over the similar period of last year being a quarter of a million. During the same half year the total production of all minerals in Ontario was \$45,103,323, as against \$42,584,402 for the same half year of 1926.

To serve the interests of hundreds of farmers in Southern Saskatchewan two new branch lines of the Canadian Pacific Railway started operation on September 1st, according to announcement by D. C. Coleman, Vice-President, C.P.R. The longer of the two lines run from Assiniboine south to Coronach, a distance of 59 miles, and the second, a 27-mile stretch, runs from Bromhead to Lake Alma.

WORLD HAPPENINGS BRIEFLY TOLD

A new mining area thought to be extremely rich in lead, zinc, silver and gold has been discovered in Northern Manitoba.

Lieut. Col. R. G. "Bob" Thackray, M.C., who served with distinction with the Canadian artillery in the Great War, died recently at Quebec.

Thail losses totalling approximately \$2,500,000 were incurred by hail insurance companies operating in the three prairie provinces during the 1927 season.

One of the largest fish in the trout species yet caught in Alberta, if not the largest of the kind ever caught anywhere else in the Dominion, was taken out of the waters of Lake Athabasca recently by A. A. Arason, a fisherman.

Bread prices at Vancouver are down approximately ten per cent, according to an announcement by the Master Bakers' Association. A loaf will in future cost nine cents, or three for 25 cents.

The city of Calgary has been presented with a model of the White Star Liner *Calgarie* by officers of the steamship company. Leo Tobin, general passenger superintendent of the company, made the presentation.

Russia has notified the League of Nations that the Soviet government will participate in the work of the preparatory commission on a disarmament conference, it was announced at League headquarters at Geneva.

The Westminster Gazette announces that Miss Mercedes Gleitz, the London typist and channel swimmer, will make an attempt to swim the Straits of Gibraltar in December. The distance of her contemplated swim is about 27 miles.

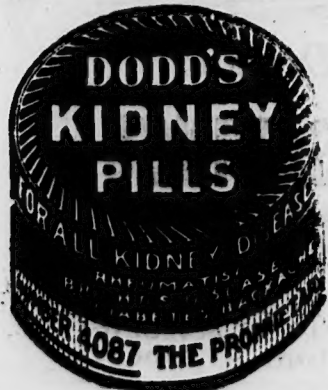

The Right Rev. Genaro Hayasaka, the first Japanese in the history of the Roman Catholic church to be made bishop, received the mitre, crozier, ring and gloves, emblematic of his office, from Pope Pius XI. in an imposing consecration ceremony in St. Peter's.

Immigration during the last six months totalled 109,600 persons as compared with 90,000 in the same six months of 1926. The gains over last year were made in April, May and June, while the July, August and September figures show a slight falling off.

Another proposed trans-Atlantic flight this year has been announced. Cédric Sabetti said he and three companions would attempt the 4,500 mile air jump from New York to Rome here in December, and that he hoped to land in the Eternal City on New Year's day.

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far added enough to attract its excellence for in all these countries it is on sale and in demand.

There are, on an average, a hundred tornadoes every year in the United States, in which 250 people are killed, and eight million dollars lost in damage to property.

W. N. U. 1766

Possibility Of War Remote

Last One Taught World a Lesson
Says Austrian Ambassador

Possibility of another world war in the near future is very remote in the opinion of Baron George Franchenstein, Austria ambassador to Great Britain.

"The last war taught us a lesson we will not speedily forget," said the Ambassador. "It was a colossal catastrophe that even now the world has not yet recovered from its blows."

The baron is in Canada to arrange for the sending of Austrian peasants to the Dominion to take up farm lands.

RUN DOWN IN HEALTH

Why Many Men and Women Are
Badly Handicapped

When you are so run down in health that it impairs the efficiency of your work as well as your power to enjoy your leisure hours, or obtain rest, it is time you looked to the cause. If you do not, a serious breakdown is almost sure to result. In nearly all cases this condition, which doctors usually describe as general debility, is due to poor blood—blood that is deficient in red corpuscles. When the blood is thin and weak your whole system suffers. You lose appetite, have no energy, your nerves trouble you and you feel restless.

What you need is help to build up your blood and you should begin at once to make your blood rich and red by taking Dr. Williams' Pink Pills. You will soon notice the difference in your health by a better appetite and increased vigor. The reason is that the new blood created by Dr. Williams' Pink Pills stimulates all the organs of the body to healthy activity and so the system gains nourishment and strength. If you are weak or out of sorts, begin gaining new strength today by taking Dr. Williams' Pink Pills. "I was in a badly run down condition," says Mrs. J. Potter, of Winnipeg, Alta., "when I began using Williams' Pink Pills and they fully restored my health. I strongly recommend this medicine to all weak people."

Dr. Williams' Pink Pills are sold by all medicine dealers, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Smart Daytime Dress

Charmingly simple is the smart dress shown here and a style easily fashioned by the home modiste. There is an inverted plait at each side of the front panel, and the back is in one piece. The long rolling collar and vester of contrasting material give a modish waistcoat effect, and the long dart-fitted sleeves are finished with shaped cuffs. A belt fastens at the side seams and ties in a chic bow at the back. No. 1571 is in sizes 38, 40, 42, 44, 46 and 48 inches bust. Size 40 requires 3½ yards 39-inch material, or 2½ yards 54-inch, and ½ yard 36 or 38-inch contrasting material (cut crosswise). Price 20 cents the pattern.

Novel Experience For Turkey

Holiday Observed While First Census
Was Taken

Turkey has undergone a novel experience, namely the taking of its first census.

The suspicious populace was convinced that the only possible motive in such a counting of heads was to facilitate the attentions of the tax gatherers.

To offset the opposition, the government decided to keep the people at home while the counting was proceeding. For this reason, Friday, which is a Turkish rest day, was chosen.

From the first streak of dawn, Constantinople seemed a city of the dead. It was plunged into profound silence. Shops were closed and streets deserted. Everyone was rigorously forbidden to leave his domicile until the census was completed.

The data collected included the names of men, women, and children, with their age, religion, native language, profession and state of health and education.

Molly—Won't you play something more, Professor? Professor—It's getting late. I shall disturb the neighbors. Molly—Oh, it doesn't matter about them—they poisoned our cat last week.—London Passing Show.

The Least Excitement Made Her Heart Palpitate and Flutter

Mrs. Ambrose Orser, Elginburg, Ont., writes: "I suffered for some time with a bad heart which seemed to be controlled by my nerves. The least little excitement would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered in this way for some time when, one day, I saw

Christmas and New Year's day fall on Sunday this year, but, as usual, will fall hardest upon father.

Harry Buss's Back bothered him for over 17 years

Then Gin Pills
relieved his pain

Harry H. Buss of Egmont, B.C., suffered from a lame back for over 17 years. Every spring he was laid up from work. He tried many remedies, but could not obtain relief. He was advised to try Gin Pills and immediately obtained relief. Read his letter:

"There is nothing to compare with Gin Pills. I suffered unceasingly with a lame back for over 17 years. I tried almost everything, even to hot poultices. I could not sleep. After taking two and a half boxes of Gin Pills I am at work again and I feel fine as a fiddle. I will not be without Gin Pills from now on. I am telling everyone in this settlement who has kidney or back trouble to give Gin Pills a trial. Publish my letter as I would like others to know what great relief Gin Pills gave me."

Pains in the back, constant headaches, swollen joints, painful urination, murky urine, brick dust deposits, scanty or too frequent voiding of urine are all symptoms of kidney trouble. Relieve your suffering and ensure a future free from kidney ailments. Get a box of Gin Pills today. 50c at all druggists. National Drug & Chemical Co. of Canada, Limited, Toronto, Canada.

NOVEMBER 13

HOSEA PREACHES GOD'S LOVE

Golden Text: "I desire goodness not sacrifice; and the knowledge of God more than burnt offerings."—Hosea 6:6.

Lesson: Hosea, Chapters 6, 11, and 14.

Devotional Reading: Psalm 36:5-10.

Explanations and Comments

I. Jehovah's Love For Israel, 11:1-4. "When Israel was a child," in the beginning of its national existence, "then I loved him, and called my son out of the bondage in Egypt." "Called him, locally, into the land of Canaan, and morally, to set an example of true religion."—Cheyne.

"Hosea dwells on that beautiful past, half in melancholy reflection on the contrast, and half in persuasive pleading that the old relations between the nation and their God may be restored. The early days in Egypt and the Desert were a history of grace on the part of God. The prophet stops in his message of doom to recall lovingly the early periods of Israel's national existence, and sees God's love claiming them, and meeting them with fit response."—Black.

"The more the prophets called them, the more they went from them; they sacrificed unto the Baalim, and burned incense to graven images." "What, then, was the good of the prophets? They kept up a church within the nation, and they developed ideas which bore fruit in due time."—Cheyne.

Hosea next compares God with a father who teaches his child to walk and carries it when wearied in his arms. But the child failed to recognize that it was Jehovah who healed him. Then the prophet changes the figure from that of a child being trained by a parent to that of an ox driven by a considerate master. "I drew them with cords of a man"—not with reins such as are used for beasts of burden—"with bands (collars) of love; and I was to them as they that lift up the yoke on their jaws; and I laid food before them." Oxen have no reins but are guided by a long goad; the yoke is fixed over the brow near the horns, and thus comes down over the jaws. A considerate owner raises the yoke from the animal's cheeks that it may eat more comfortably.

"How much more clearly should the Christian church see this than Hosea, after the greatest of all object lessons in Jesus Christ! The whole story throbs with human tenderness, with human sympathy with men in their joy and their sorrow, sympathy with a little child, and with all on whom the yoke pressed, the laboring and heavy laden. Can He fail to draw all men unto Himself? With the cords of a man He is drawing all men; in the bonds of love He is binding the world together. Who can resist the appeal?"—Hugh Black.

Hudson Straits Were Free Of Ice

Airmen Patrolling Area Reported Open
Water At End Of October

Daily radio reports received from airmen who are now flying the 400-mile stretch of Hudson straits have already accomplished one important purpose.

The navigation period of the straits, even now, has been proved to extend one week longer than was heretofore admitted by many noted authorities. Officials of the marine and fisheries department declared that the airmen reported that there was not yet a sign of ice in the straits on Oct. 27th. The reports came as a surprise to many of these officials, who are authorities on navigation and who confidently expected that ice would drift down Fox channel into the straits shortly after October 1 at the latest. The straits are from 49 to 100 miles in width, so that it was not expected that navigation would close until a great deal of ice had drifted in. As the situation now stands, with no ice whatever in the straits on Oct. 27, they are of the opinion that navigation will be open far into November, perhaps as late as December.

Reports received so far indicate that there is very little variation between conditions of weather, etc., in the straits and in the St. Lawrence gulf. As a matter of fact, fog seems to occur much less frequently in the straits.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Lethbridge Air Harbor

Col. J. L. Ralston, Minister of National Defence, announces that a license for a public custom's air harbor has been granted to the City of Lethbridge. The flying field is situated within the city limits and is therefore readily accessible. This is the second to be established in Alberta, the other being Edmonton.

COPYRIGHT, CANADA, 1925

CHAPTER XI—Continued.

Helmi carefully studied her ticket—a little maple strip of paper with a yellow back, on which were strange words. She saw the names Saskatoon, Edmonton and Eagle Mines. Evidently this last was her destination. Mrs. St. John told her she was going to a lovely spot in the mountains where a lot of men worked in mines. Mrs. St. John had heard her husband speak of it, she said. Helmi shrugged her shoulders doubtfully. A mine where a lot of men worked did not sound very attractive. It would mean that she would have to cook, scrub bare floors, wash big white cups with ugly tea stains, and have no good times at all. She would rather stay in the city, where she would find a girls' club, and go to suppers in basements, and play basket-ball in school yards, and see lovely dresses in shop windows, and eat ice-cream cones, and perhaps have another chance at night school; then on Sundays she would go to church and hear a lovely organ with a sweet religious sound, and perhaps she might find another Miss Abbie.

Helmi now recalled Aunt Lili's advice and faithfully said it over and over again—"Leave men alone—they break your heart." She was determined that she would always remember this. Girls were best, nice girls like Lucy Powers and Hattie. She wished now that she could write Lucy and Hattie and tell them everything, but Mrs. St. John had warned her to write no letters. The Girls' Friendly would try to find her and bring her back, so she must give them no clue.

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario. "I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it." — Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

W. N. U. 1706

Says Marriage Prolongs Life

Wives Live Longer Than Single Women Declares Actuary

Married women live longer than single women, according to the British Government Actuary, Sir Alfred Watson.

In a report on life tables based on the population as returned in the 1921 census, and on the average number of deaths recorded in the three years 1920-'22, rates of mortality for single, married and widowed women show that the advantage lies with the married woman.

At the youngest ages for which comparison was possible, the lightest rates were those for single women. Rates for single and married women differed but slightly between the ages of 24 and 27. But thereafter the rates for married women were usually lower than those of single women or widows, while rates for widows were invariably heavier than those for single women or wives.

What is wrong with the tea? If this question is ever asked at the table you may find that the tea you are using was in a poor package. Careful experiments have proven that Aluminum is the only fit package to keep good tea in. You should try Red Rose Tea and see how fresh and brisk and pungent it is in the Aluminum package.

207

low-passengers, but she lingered over her meals in the diner to watch them, wondering about each of them. Did they all know where they were going? Had they people to welcome them when they arrived at their destination, or were they like her, just going some place to be away from some other place? She wondered, if one kept on going, going, going, would every disagreeable thing fall away, every sin and every sadness? As she looked out over the melting fields, the air was so sweet and purifying—it would surely wash away everything that one did not like to remember—and how that train did eat up the miles—throbbed, pounding, beating, unrelenting and tireless! She tried to see if the telephone poles were all the same distance apart by counting on her fingers at the same rate of speed. Sometimes she could get to ninety, but more often a pole came in at eighty-seven.

Helmi felt the distinction of riding in the drawing-room all alone. It seemed to have about it a proud aloofness, with its own little wash-room and towels, and abundance of room, while the car outside was crowded. It flattered her, too, to notice how attentive the porter was, though she was shrewd enough to connect it with the generous tip which she knew Mrs. St. John had given him, engendering in him thereby that gratitude which shades delightfully into anticipation.

Mrs. St. John had told her that when she went for her meals it would be well to carry a book—a book keeps chance acquaintances at a distance. For it plainly means "Keep away! can't you see I'm occupied?"—and just now conversation was not desirable. Helmi's Finnish accent might betray her. All these instructions, hurriedly given though they were on the way to the station were strictly obeyed. She remembered to walk languidly, tip generously and betray no open interest in her surroundings. It was well to let her fellow travellers think that travelling was an old time experience for her. When she yawned she patted her mouth daintily.

A tired mother with a swarm of sticky children occupied a double seat half-way down the car. When Helmi came out of the drawing-room and passed them on her way to the diner, the woman looked after her enviously. "I hope that girl knows when she's well off," she said. "Gosh! it's me that ought to have that place to myself with this gang of mine, where I could wallow them in peace without having folks stare at me. But ain't it the way of the world? Them that has gets! People with big families have small houses; people in big houses have none at all. It sure does seem strange—but what can a person do? Maudie, I'll lay you cold if you don't stop teasing the baby."

When Helmi was on her way back the family was in a state of extraordinary commotion. Charley, the five-year-old, was getting a temporary

cleaning up by the method known as a "spit-wash," the young man objecting noisily, not to the method alone, but to the whole basic principle. In addition to her operations on Charley the mother was trying to quell the riot that had broken out between Maudie and the baby over the finding of a nut-bar in the general turmoil of coats, hats, oranges, bags and toys which were wedged in between the children on the seat. "Maudie, stop! Don't take it from him—let him eat it." The baby had the nut-bar. Maudie hoarsely protested. Maudie's voice was hoarse with roaring. Maudie had to roar if she were to be heard above the family clatter. "Oh, leave him alone while he's good!" cried the mother in despair. "Let me have a moment's peace, even if it does make him sick, I'll give him castor oil to-night. Stand still Charley, or I'll lay you cold!" Then it was that Helmi forgot her instructions, forgot that she was a fugitive from the law—she only knew that here were people who needed a friendly hand of the sort that she could supply.

(To Be Continued.)

Worse Than Infantile Paralysis

Infantile paralysis is a flea-bite compared to rheumatic fever in the opinion of Dr. John Meakins, of McGill University, who spoke at the post-graduate medical conference in Kansas City. The symptoms of rheumatic fever often are found in five-year-old children and are wrongly called growing pains, he said. In a large number of cases this develops into heart disease.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

How Turkey Handles Speeders

Patrolman Instructed To Throw Nails In Their Path

A unique method of combating the tendency of Constantinople motorists toward excessive speeding has been put into practice recently. The mayor, in addition to providing for a motor cycle traffic squad, has issued instructions that the patrolman be provided with short nails to throw in the path of recklessly speeding drivers.

Constantinople's narrow, tortuous, cobbled and hilly streets are no bar to the chauffeurs, who drive at break-neck speed, causing many casualties.

The mayor says the next campaign will be against excessive noise. He sees no reason why the ordinary automobile should sound like a fire engine answering a call.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

The British Policy

Helping Other Lands To Achieve Best Possible Results

Dr. Adams, emeritus Vice-Principal of McGill, who has returned from a visit to the East, says that the British have made Palestine prosperous. Brigandage has been suppressed, roads have been improved and extended, and reforestation is being studied. Order has replaced disorder and the inhabitants are benefiting. The military force numbers but a thousand, two hundred of whom are British. The High Commissioner is Lord Plumer, a great soldier, who is also a most capable administrator. The improved conditions in Palestine are in the nature of things. It is the British way to help other lands and peoples to achieve the best possible results. — Montreal Gazette.

Girls beg the question when they try to induce men to propose.

Minard's Liniment for Chilblains.

11 OUT OF 83

Cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted.

When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

Zam-Buk

Little Helps For This Week

In the fear of the Lord is strong confidence, and His children shall have a place of refuge.—Prov. xiv. 26.

Have faith in God; for He who reigns on high

Hath borne thy grief, and hears the suppliant's sigh;

Still to His arms thy only refuge fly.—

Have faith in God.

—Anna Shipton.

Trust Him; trust Him about every one and everything, for all times and all needs; earth and heaven, the conquest of sin, the growth of holiness, the cross that chafes, the grace that stirs. To trust God glorifies and honors Him.—Thorold.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Now that we have a self-operating typewriter we are very much in need of a machine that will get busy and do our thinking.

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste, it's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning: it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

Children Cry for

Fletcher's CASTORIA

Large Pimples Lasted A Year Cuticura Heals

"My face and neck were all covered with pimples. They were red, hard and large and festered and scaled over. For a while the itching and burning were so severe that I could not help scratching, and my face was disfigured. I lost my sleep for about a month on account of the irritation. The trouble lasted one year.

"I used other remedies but they failed to help me. I sent for a free sample of Cuticura Soap and Ointment. After using it I purchased one cake of Cuticura Soap and one box of Ointment and in a month and a half I was healed." (Signed) Miss Emily Doll, Riverton, Man.

Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Soap Free by Mail. Address Canadian Depot, "Shimsham, Ltd., Montreal." Price, Soap 25c. Ointment 50c and 10c. Talcum 25c. 2500 Cuticura Shaving Stick 25c.

Church Announcements

KNOX and WESTCOTT

Last week Mr. Hayes visited Carstairs, Olds and Jutland district, and at each place gave a lecture on the work of the United Church in Africa.

At Didsbury about eight pupils are taking the teacher training course in child training. The class meets each Thursday at 7:30 p.m.

Apparently the winter is with us. The people of the maritime provinces have a long, cold season, but they improve the time by reading and study. That district has given to Canada, seven university presidents, and hundreds of prominent men. Can we not equal their record? The secret of their success is that they put the religious side of life first. They are great church-goers. You defeat your community if you stay away from the services. This Sunday Mr. Hayes is taking as his theme, "Reverence and Practical Life."

Westcott, 11 a.m. Community Hall, 3 a.m. Didsbury, 7:30 p.m.

Community Hall is putting on a big night on Wednesday, Nov. 6th. A chicken supper and a concert.

EVANGELICAL NOTES.

An illustrated lecture on "The Parables of Our Lord," consisting of about 50 pictures will be given in the church next Sunday evening. An old proverb says, "Wisdom comes when truth is brought to light." Come to the service and get all three:—Wisdom, truth and Gospel light.

ST. CYPRIAN'S

(Church of England)

Priest-in-charge, Rev. H. Clay, Box 157, Olds.

First Sunday in the month—Afternoon at 3.00 p.m.

Third Sunday in month—Morning at 11.00 a.m.

School is held every Sunday.

Delegates from many parts of Alberta gathered in First Baptist Church, Edmonton, on October 26th, for the fifteenth annual convention of the Provincial W.C.T.U.

Mrs. Louise C. McKinney, in her characteristic manner of leadership, presided during the three days of convention. In her annual address she admonished all W.C.T.U. members in this year of jubilee to pledge their loyalty to our nation by building into national life the principles our mothers, even before Confederation, believed to be right, and with their courage to carry on in their footsteps.

Dr. Hugh Dobson addressed the convention on "The Challenge of the Task Just Ahead." He stressed the need of strong character to lead the world in these days of racial admixture and a necessity of temperance teaching if we are to make the world a safe place in which to live. In this material age the end of all business is the contribution it makes to life and great emphasis should be placed on the spiritual and moral forces.

The Honorable Mr. Lymburn, attorney-general, spoke on "The problem of who controls the manufacture of liquor and the constitutional aspect of government control." He said: "The W.C.T.U. has taken a very decided stand in the work of trying to let men see they have not only to control themselves, but are also their brother's keeper. They are helped to see this by your attitude."

We look forward to the day when Canada will be the greatest nation of the world. That can only be attained when we all work together.

A. L. Marks, president of the Social Service Council, in his address admonished the W.C.T.U. to co-operate with other organizations. He said, "Sell yourself to the cause, then sell your ideals."

Fifty-six delegates were in attendance at the convention, each returning home enthused with the spirit of optimism expressed throughout the convention and determined to sell her ideals.

In writing to advise The Pioneer of General Motors Company's plan to use the weekly press for an advertising campaign, Mr. R. S. McLaughlin, the President of the Company, had the following complimentary remarks to make concerning the influence of the weekly press: "I believe in the
